PROFESSIONAL & TECHNICAL EXPERIENCE

Website Portfolio
- Designed, developed, & hosted my own website portfolio using HTML, SCSS/SASS, JavaScript, Third Party API's - Swiper.js and typed.js
- Incorporated Google Analytics A4 to monitor and increase website traffic by 200% and steadily increase weekly page views by 15%

Front-End Projects
- Completed a series of Front-End challenges using various Front-End tools & languages such as HTML, CSS and SCSS/SASS, JavaScript, React.js, and Third Party API's
- Used React.js and SCSS/SASS to create an interactive and user-friendly website that incorporates UI/UX design principles.

Logistics Specialist   09/2021 - 12/2022
Frontier Supply Chain Solutions Inc.
- Contributed a total of 80 new product codes to the company's product database
- Cleared over 200 commercial truck deliveries crossing state borders, with an average of approximately 10 deliveries a day
- Communicated with commercial drivers and vendors to ensure accurate and timely delivery of goods

Sales Associate   11/2018 - 07/2020
Zara Inc.
- Increased productivity by 50% amongst team members by always keeping the sales floor clean, allowing us to complete customer transactions swiftly with little to no wait in line.
- Achieved both in-store and mobile sales to surpass the store's daily sales goals
- Trained new employees on daily store tasks and procedures.
- Achieved daily sales goals to maintain and increase the department's budget

TECHNICAL SKILLS

- Proficient in front-end technologies such as HTML, CSS, SCSS/SASS, and JavaScript, with experience in building responsive and dynamic user interfaces using React.js and TailwindCSS.
- Strong understanding of mobile-first and responsive web design principles, as well as UI/UX best practices for creating intuitive and engaging user experiences.
- Familiar with version control tools like Git & Github, with a focus on maintaining high standards of code quality and collaboration with cross-functional teams.
- Excellent communication and problem-solving skills, with a resourceful and collaborative approach to tackling new challenges and technologies.

PROJECTS

Github User Search App, To-Do List, Typing game - React, HTML, SCSS/SASS, Git & GitHub, API's
- Developed single page applications using ReactJS for front-end
- Used Third Party API's to manage and render data on the client side
- Deployed using Github Pages

Random Advice Generator- HTML, SCSS/SASS, JavaScript, Third Party API
- Developed a web application that generates a random advice that's called from an API database
- Used Git for version control
- Deployed using Github Pages

CSS Art - HTML, CSS, SCSS/SASS
- Developed multiple art projects using CSS, to strengthen CSS and design skills
- Used Git for version control and GitHub for continuous deployment

Mock Websites - HTML, SCSS/SASS, JavaScript, React, TailwindCSS, Third Party API
- Developed multiple front-end mock websites using design files and assets to simulate real world front-end practices
- Created documentation for each project to inform users and developer on the development journey
- Used Git for version control and Github Pages for deployment
